

# FAMILY CAMPING CHECKLIST

Take a **few tips** from the experts, so you'll be prepared with valuable **know-how** and essential camp gear!

## TENT TIPS:

- A 6-person tent comfortably fits 4 plus air mattresses and gear
- Look for weather- and water-resistant features
- Quick and easy set-up is a must
- Place a tarp under tent for added barrier against the rain

## SLEEPING SOLUTIONS:

- Rectangular sleeping bags offer maximum comfort with room to move
- An air mattress lets you enjoy the outdoors without sacrificing comfort
- Leave bulkier personal pillows at home and pack camping ones instead

## CREATING COMFORT IN CAMP:

- Bring a camp chair for relaxing (great around the campfire!)
- Take along a cooler so food stays cold through entire campout
- Beat the heat and sun—add some instant shade with a canopy

## LIGHTING IDEAS:

- A propane-powered lantern provides plenty of light for your campsite
- Add a handy, solar-powered tent light, perfect when getting ready for bed
- If venturing from your tent at night, a headlamp guides you... hands-free!

## CAMP/COOKING MUSTS:

- Opt for a propane stove that sets up easily and heats up quickly
- Don't forget your packable, personal tableware set

## “BE PREPARED” ESSENTIALS:

- A Multi-Tool is a must-have to help keep camp running smoothly
- Bring a first-aid kit that covers any basic camping mishap
- Consider an insect-repellent lantern for your campsite

*Checklist on the back. >*

# YOUR CHECKLIST:
